

## Shareholders Rights Directive II ('SRD II' - 2017/828) Statement

### Introduction

Vanda Asset Management Limited is UK AIFM managing, at the time of publication, a non-EEA which pursues a global macro investment strategy. As part of this strategy, the Firm invests across a variety of asset classes and markets globally.

### SRD II

Article 3g of SRD II, which is summarised in the FCA Handbook under COBS 2.2B, requires the Firm to either:

- develop and disclose an engagement policy describing how the firm integrates shareholder engagement in its investment strategy; or
- disclose why the firm has chosen not to comply with those requirements.

Such an engagement policy requires a firm to describe how it:

- integrates shareholder engagement in its investment strategy;
- monitors investee companies on relevant matters, including:
  - strategy
  - financial and non-financial performance and risk
  - capital structure
  - social and environmental impact and corporate governance
- conducts dialogues with investee companies;
- exercises voting rights and other rights attached to shares;
- cooperates with other shareholders;
- communicates with relevant stakeholders of the investee companies; and
- manages actual and potential conflicts of interests in relation to the firm's engagement.

The above engagement policy is limited to the extent that a firm invests on behalf of investors in shares traded on a regulated market (or on third country markets that meet comparable requirements and where the shares dealt in are of a quality comparable to those in a regulated market in the UK).

### Vanda Asset Management Limited's approach to engagement

The Firm's investment strategy is such that:

- ❖ whilst the Firm may invest in shares traded on a regulated market (or comparable market), from time to time, the resultant holdings are of an insignificant size and voting power to the extent that the Firm does not actively engage with investee companies; and
- ❖ the Firm is an active trader and any listed shares which are traded on behalf of clients are not generally held with a long-term view, with the result that the concept of actively engaging with investee companies would serve no practical purpose.

While the Firm generally supports the objectives that underlie SRD II, for the above reasons the Firm has chosen not to produce an engagement policy at this time.
